Professional Summary

Final-year B.Tech Computer Science student with hands-on internship experience developing machine learning models in Python. Proficient in data preprocessing, feature engineering, and using libraries such as NumPy, Pandas, and scikit-learn. Familiar with FastAPI and software development principles, having written clean, maintainable code for data-driven applications. Seeking an entry-level AI Engineer role to support development and deployment of AI solutions.

Technical Skills

- **Programming Languages:** Python, C, C++
- **Frameworks:** FastAPI, Streamlit
- **Libraries:** NumPy, Pandas, Matplotlib, Scikit-learn, Machine Learning Libraries
- **Databases:** MySQL, MongoDB
- **Data Analysis & ML:** Data Preprocessing, Feature Engineering, EDA, Regression, Classification, Model Evaluation, NLP Experience, Interest In Generative AI, AI/GenAI Patterns
- **Developer Tools:** Git, GitHub, VS Code, Kaggle, APIs
- **Web Technologies:** HTML, CSS

Education

I.K. Gujral Punjab Technical University, Mohali, Punjab

B.Tech, Computer Science and Engineering (GPA: 8.48 / 10)

Jun 2026

Mohali, Punjab

Kendriya Vidyalaya, Mohali, Punjab

Higher Secondary (GPA: 79%)

2022

Mohali, Punjab

Kendriya Vidyalaya, Mohali, Punjab

Matriculation (GPA: 85.8%)

2020

Mohali, Punjab

Experience

NIELIT

AI/ML Summer Trainee

Jun 2024 - Aug 2024

Sector-30, Chandigarh

- Developed machine learning-based predictive models using Python and scikit-learn.
- Performed data preprocessing including handling missing values and feature selection.
- Implemented regression and classification algorithms and applied NLP techniques for text data processing.
- Gained hands-on experience with NumPy, Pandas, and data analysis workflows.
- Enhanced understanding of AI project lifecycle and foundational AI/GenAI patterns such as retrieval-augmented generation (RAG).

Projects

Face Recognition Attendance System

- Designed AI-based attendance system using facial recognition.
- Implemented facial detection and recognition using Python.
- Integrated MySQL database for storing and retrieving student records.
- Built Tkinter-based user interface.
- Tools: Python, OpenCV, MySQL, Tkinter

Flight Price Prediction System

- Built machine learning regression model to predict airline ticket prices.
- Performed exploratory data analysis and feature engineering.
- Trained models to estimate optimal price ranges.
- Created web interface for user input and prediction display.
- Tools: Python, Pandas, NumPy, Scikit-learn, HTML, CSS

Agri-Rent – Agricultural Equipment Rental Platform

- Developed data-driven platform for renting agricultural tools.
- Designed backend APIs using FastAPI.
- Implemented Streamlit-based frontend dashboard.
- Used MongoDB for storing rental data.
- Applied data validation using Pydantic models.
- Tools: Python, FastAPI, Streamlit, MongoDB, Pydantic

Leadership & Activities

I.K.G.PTU Mohali Campus-1 | *President – Training & Placement Club*

Mar 2024 - Present

- Coordinated between students, faculty, and recruiting companies.

NSS | *Volunteer*

Mar 2024 - Present

- Participated in community awareness and social service programs.

Core Committee Member – Students Club Handling Committee

Jul 2023 - Nov 2023

- Managed discipline and coordination during campus events.
